RE: South Carolina Electric & Gas Company
Request for Approval of Revisions to Lighting Rate Schedules
Docket No. 2009-122-E

Dear Mr. Terreni:

By letter dated March 17, 2009, South Carolina Electric & Gas Company ("SCE&G" or "Company") requested approval from the Public Service Commission of South Carolina ("Commission") to revise its lighting rate schedules, namely Rates 17, 18, 25, 26, and Residential Subdivision Street Lighting (collectively referred to as the "Revised Lighting Schedules"). The primary purpose for SCE&G's request was to comply with the requirements of the Energy Independence and Security Act of 2007 ("EISA") which required, among other things, that ballasts installed in certain metal halide and mercury vapor fixtures meet higher energy standards beginning January 1, 2009. By Commission Order No. 2009-258 dated April 16, 2009, the Commission approved the revisions to SCE&G's Revised Lighting Schedules.

At the time SCE&G submitted its Revised Lighting Schedules, the Company inadvertently omitted two lighting fixtures from Rate 18 which the Company plans to maintain for pattern sensitive areas. Accordingly, the fixtures – identified as "9,000 Lumens (MH)(100)(Modern) and 9,000 Lumens (MH)(100)(Classic)" – should have been included in the original filing made on March 17, 2009.

Enclosed for approval, *nunc pro tunc*, is the tariff sheet "Rate 18 Underground Street Lighting", which incorporates the revisions approved by Commission Order No. 2009-258 as well as the two lighting fixtures referenced above. For ease of reference, the newly added lighting fixtures to Rate 18 are highlighted in green.

By copy of this letter, we are also serving counsel for the South Carolina Office of Regulatory Staff with a copy of revised Rate 18 and attach a certificate of service to that effect.

AVAILABILITY

This rate is available to customers, including municipal customers, using the Company's electric service for street and area lighting served from existing underground distribution facilities.

APPLICABILITY

Applicable only to outdoor lighting high intensity discharge fixtures, either high pressure sodium (HPS), or metal halide (MH), and with poles conforming to Company specifications. Services will be rendered only at locations that, solely in the opinion of the Company, are readily accessible for maintenance. If the Company is required to install light fixtures on poles other than those described herein, the Company will determine in each case the amount and form of payment required.

RESIDENTIAL SUBDIVISION CUSTOMER CHARGE

*The lights described above may be installed in new or existing residential subdivisions at the ratio of one light for either every four (4) or six (6) metered residences. An administrative charge of \$2.25 will be added to each fixture billed under this provision. Each monthly bill rendered will include an amount for the installed lighting. Such amount will be determined by adding the appropriate charges above for the installed luminaries, pole, and administrative charge and dividing such charge by either four (4) or six (6). This provision is applicable only if no other lighting option is available for the residential subdivision. This provision is not available for lighting parking lots, shopping centers, other public or commercial areas nor the streets of an incorporated municipality.

REPLACEMENT OF EXISTING SYSTEMS

In the event that the customer desires to replace an existing lighting system owned and operated by the company, the customer shall be required to pay to the Company an amount equal to the provision for early contract termination listed below.

PROVISION FOR EARLY CONTRACT TERMINATION

In the event that the customer terminates the contract prior to the end of the contract term, the customer shall pay as the termination charge the appropriate charges above excluding fuel for the remainder of the contract term; plus the sum of original cost of the installed equipment, less accumulated depreciation through the effective termination date, plus removal and disposal costs, plus environmental remediation costs less any applicable salvage values, the total of which shall in no case be less than zero.

MINIMUM CHARGE

When construction costs exceed four (4) times the estimated annual revenue excluding fuel revenue to be derived by the Company, the customer may make a contribution in aid of construction of the excess cost or pay the Company's standard facility rate on the excess construction cost in addition to the rate charges above.

ADJUSTMENT FOR FUEL AND VARIABLE ENVIRONMENTAL COSTS

Fuel costs of \$.03291 per Kwhr. are included in the monthly lamp charge and are subject to adjustment by order of the Public Service Commission of South Carolina

STORM DAMAGE COMPONENT

The energy charges above include a storm damage component of \$.00152 per Kwhr. for accumulation of a storm damage reserve.

SALES AND FRANCHISE TAX

To the above will be added any applicable sales tax, franchise fee or business license tax which may be assessed by any state or local governmental body.

PAYMENT TERMS

All bills are net and payable when rendered.

TERM OF CONTRACT

Contracts under this rate shall be written for a period of not less than ten (10) years. The Company reserves the right to remove its facilities when subject to vandalism or for other cogent reasons.

SPECIAL PROVISIONS

The Company will furnish, erect, operate and maintain all necessary equipment in accordance with its standard specifications. Standard service for post top decorative lamps requiring underground wiring shall include one hundred twenty five feet of service conductor, all necessary trenching and back-filling in normal, unimproved soil. Non-standard equipment or installation in extraordinary conditions such as, but not limited to, landscaped areas, paved areas, or extremely rocky or wet soil will require the customer to pay the difference in cost between such non-standard equipment and/or extraordinary conditions and the standard service installed under normal conditions or pay to the Company its normal monthly facility charge based on such difference in costs.

GENERAL TERMS AND CONDITIONS

The Company's General Terms and Conditions are incorporated by reference and are a part of this rate schedule. Service hereunder is subject to Rules and Regulations for Electric Service of the Public Service Commission of South Carolina.
